

For more than 10 years 3Q has developed and operated a robust and high-performance SaaS platform for video management and streaming.

We are specialists in streaming technologies and high availability. Using our in-house platform, we broadcast live and on demand content for leading content providers worldwide. With full GDPR compliance, innovative features, multiple system integrations, an intuitive UI and customer support based in Berlin, we are a trusted partner for our customers.

To support our strategy of sustainable growth, we are searching for

PHP Developer (m/f/x) – Fulltime

What we want to achieve with you

- Expand and improve our video platform
- Expand our platform in a sustainable and scalable way
- Implement exciting market-leading features

Your Tasks

- Realization of new features in our video streaming platform from design to implementation and quality assurance
- Backend development with the PHP framework Symfony

What you offer

- A degree in computer science, a comparable education, or corresponding professional experience
- A high level of teamwork and strong communication skills
- A willingness to take on a lot of personal responsibility for features or products
- You are a PHP ninja and know your way around the Symfony Framework
- You know your way around databases and ORM (e.g. Doctrine)
- You have experience with Docker and Kubernetes
- You write clean, maintainable code and documentation
- You have a high willingness to learn new tools and technologies
- You have initial experience with video streaming, video transcoding, and/or video Management
- Experience with Typescript and the corresponding frameworks is desirable
- Fluent Business German, English is desirable (written and spoken)

What we offer

- a young and highly motivated team
- the space to introduce and implement your own ideas
- flexible working times
- friendly working conditions (e.g. free coffee and other drinks in the office, flexible home office policy, and much more)
- Offices in Berlin & Munich
